701	Geometry - Line Segment	Author	Romaine Saunders
		Date	17 Dec 2007
		CPM OS	03.01.3000.0240

Tap  and then tap 
Geometry

Start a new geometry file, tap **File, New** and then **OK**.

To draw a line segment:

Either tap **Draw, Line Segment** or tap the second down arrow

and choose the line segment tool

Either tap the screen in two places to draw line segment AB

or tap the screen once to indicate the starting point, tap the screen again and drag to locate the other end of the line.

To determine features of line segment AB:

Tap the right arrow  at the far right of the toolbars to display the measurement toolbar.

Tap once on a blank part of the screen to deselect everything and then tap once towards the middle of the line to select it.

The toolbar shows the length is 7.778335.

To determine the:

Length of AB: tap 

Gradient of AB: tap 

Equation of AB: tap
